

SHERIF AYMAN

Data Analyst | Computer Science & AI Student

Benha, Egypt | +20 01141129696 | sherifaymanazb@gmail.com | [linkedin.com/in/sherifazb](https://www.linkedin.com/in/sherifazb) | <https://sherifazb.github.io/>

SUMMARY

Computer Science & AI student (GPA 3.77/4.00) with strong project experience in Power BI, ETL, and data modeling through the Instant Academy Data Analyst Program. Proficient in Power BI (DAX, Star Schema, Power Query), Advanced Excel (Pivot Tables, VLOOKUP), and data storytelling. Skilled at transforming unstructured datasets into actionable dashboards and BI insights. Seeking a Data Analyst internship.

TECHNICAL SKILLS

Visualization & BI: Power BI (DAX, Star Schema, Power Query), Excel (Pivot Tables, Advanced Formulas, Charts, VLOOKUP, INDEX/MATCH)

Data Engineering: ETL Processes, Data Modeling, Data Cleaning, Star Schema Design, Data Wrangling, EDA

Analytics: Statistical Analysis, Time-Series Analysis, KPI Development, Business Intelligence, Data Storytelling

Programming: C++, OOP, SQL (currently learning)

Soft Skills: Technical Documentation, Business Requirements, Cross-functional Collaboration

TRAINING PROGRAM PROJECTS (Instant Academy — Data Analyst Program)

Vodafone Qatar Capstone Project | Instant Academy Data Analyst Program

2025

- Cleaned unstructured raw datasets with Power Query and built a Star Schema model to optimize Power BI reporting performance.
- Developed an interactive Power BI dashboard tracking KPIs (customer acquisition, churn, revenue) for executive stakeholders.
- Applied ETL processes across multiple data sources, improving data integrity and reducing manual reporting effort.

Banque Misr Financial Analysis Capstone Project | Instant Academy

2025

- Performed EDA on large-scale banking datasets using Excel and Power BI, identifying customer behavioral trends and financial patterns.
- Built dynamic dashboards for transaction volume, customer segments, and revenue KPIs; simplified insights for non-technical stakeholders.

Uber Ride-Sharing Analysis Capstone Project | Instant Academy

2025

- Identified peak demand hours (30% higher requests) and a 23.5% revenue growth trend via time-series analysis of trip and fare data.
- Cleaned large trip datasets and created interactive geographic Power BI maps to monitor driver performance across high-demand regions.

Samsung Sales Performance Analysis Capstone Project | Instant Academy

2025

- Technical Stack: Power BI Desktop, DAX, Power Query, Advanced Excel.
- Managed the full data lifecycle from raw Excel datasets to a polished interactive dashboard, focusing on Samsung's regional sales and product categories.
- Utilized Power Query to clean and reshape complex sales data, including handling inconsistent date formats and null values to ensure 100% data accuracy.
- Designed a Star Schema to establish efficient relationships between Product, Sales, and Geography tables, improving report refresh time and performance.
- Developed custom DAX measures for critical KPIs such as Total Sales, Unit Margin %, and Top-Selling Series (Galaxy S24) to identify profit drivers.
- Created an intuitive dashboard featuring decomposition trees and trend lines that revealed 12% growth in specific regional markets, assisting in data-driven inventory planning.

EXTRACURRICULAR ACTIVITIES

Team Participant & Finalist | GDG Bootcamp & Competition

2024

- Achieved 5th place out of all competing teams; delivered technical solutions under tight deadlines within a multidisciplinary team.

Student Coordinator (Volunteer) | Benha University

2024 – Present

- Managed oral exam logistics for 30+ students and served as the communication bridge between professors and students.

EDUCATION

B.Sc. Computer Science & Artificial Intelligence | Benha University, Egypt

Expected May 2028

GPA: 3.77 / 4.00 | Completed: 2nd Year | Coursework: Algorithms, Data Structures, OOP (C++), Systems Analysis & Design, Statistical Analytics

LANGUAGES

Arabic: Native | English: B2 – Upper Intermediate
